## Michigan Grocery Brands

The following list of brand names will help you to identify local buying opportunities when you see them on the shelf. Most brands can be purchased through stores and not just via the internet. If you have trouble finding a brand in your local store, however, you may likely order it online. Once you've done that, don't forget to ask your local store to start carrying it for you in the future.

## **Agriculture**

Agriculture is the 3<sup>rd</sup> largest industry in Michigan (trailing only manufacturing and tourism, respectively). Buying from local farmers and markets fuels our economy, while reducing our collective carbon footprint. Here is a list of the state's major commodities, which are commercially available:

Apples	Green Onions
Asparagus	Honey
Beans	Lamb
Beef	Maple Syrup
Bison	Mint
Blueberries	Onions
Carrots	Peaches
Celery	Plums
Cherries	Pork
Corn	Potatoes
Cranberries	Poultry
Dairy	Rhubarb
Eggs	Soybeans
Grapes	Sugar
Ginseng	Wine

Many communities also hold farmer's markets seasonally, which are a great way to support local growers. Such markets often include a wider variety of fruits & vegetables than those listed above. For information regarding Farmer's Markets in your area, consult the [Michigan Farmers Market Association](#).
